Government Forum Brief Introduction

The 5th International Conference on the Modernization of Traditional Chinese Medicine

By the support and participation of the relevant countries and international organizations, after preliminary meeting, the Government Forum of the 5th International Conference on the Modernization of Traditional Chinese Medicine (hereinafter referred to as "the 5th ICETCM") jointly organized by Department of S&T for Social Development of Ministry of Science and Technology, Department of Science, Technology and Standards of China Food and Drug Administration, Department of International Cooperation of State Administration of Traditional Chinese Medicine, Protection and Coordination Department of State Intellectual Property Office, Traditional Medicine Department of WHO, Science & Technology Department of Sichuan Province and Administration of Traditional Chinese Medicine of Sichuan will be held at Century City International Convention Center in Chengdu, Sichuan Province, China on October 23rd-25th. Hereby we express our warm welcome to all the distinguished guests and delegates attending the Government Forum.

The International Conference on the Modernization of Traditional Chinese Medicine is held every three years. As an important panel of the Conference, Government Forum has become an important platform with widespread influence and popularity to promote the traditional medicine exchange and cooperation between governments. The Government Forum of the 5th ICETCM once again focuses on the global concerned hot issues and development trends of TCM modernization and internationalization, refining three themes to discuss which are "International Belt and Road (science and technology) Cooperation of TCM", "Construction of International Standard System of TCM" and "Laws and Regulations Coordination on Chinese Pharmacy Registration". There are about 80 famous technical officials, experts, scholars and entrepreneurs from 19 countries, regions and international organizations such as Chinese Ministry of Science and Technology, China Food and Drug Administration, State Administration of Traditional Chinese Medicine, State Intellectual Property Office, Chinese Pharmacopoeia Commission, Center for Drug Evaluation of CFDA, U.S. Food & Drug Administration, the United States Pharmacopoeial Convention (USP), American Herbal Pharmacopoeia Commission (AHP), European Directorate for the Quality of Medicines & HealthCare (EDQM), European Pharmacopoeia Commission (EPC), Netherlands Food and Drug Administration, Poland Food and Drug Administration, the European Foundation of TCM-Spain, South African Ministry of Science and Technology, South African Bureau of Standards, Vietnamese Ministry of Health, Indian Traditional Medicines Authority, Singapore Ministry of Health, Uzbekistan, Australian Standards Committee, Hong Kong Department of Health, Economic and Financial Department of Macao, Traditional Medicine Department of WHO, ISO/TC249, International Traditional Medicine Association, International Society of Traditional Natural Medicinal Plants and Natural Products etc. In addition, there are about 70 representatives from Chinese local government, S&T enterprises, traditional Chinese medicine and biological medicine enterprises, universities, research institutes and medical units. The elites and representatives from the fields of traditional medicine in the world and S&T innovation once again gather and will represent more than 20 excellent and amazing reports on the three themes of the Government Forum, and carry out full exchanges and dialogues with each other to form new consensus on cooperative development of TCM & TM.
